Paint rollers & accessories	11
--	-----------

Rota - High-quality paint rollers and accessories for paint application: The Rota range includes high-performance branded items as well as entry-level products. Clearly structured and attractively designed. This allows you to offer your customers the optimum roller for every application.

Paintbrushes	53
---------------------	-----------

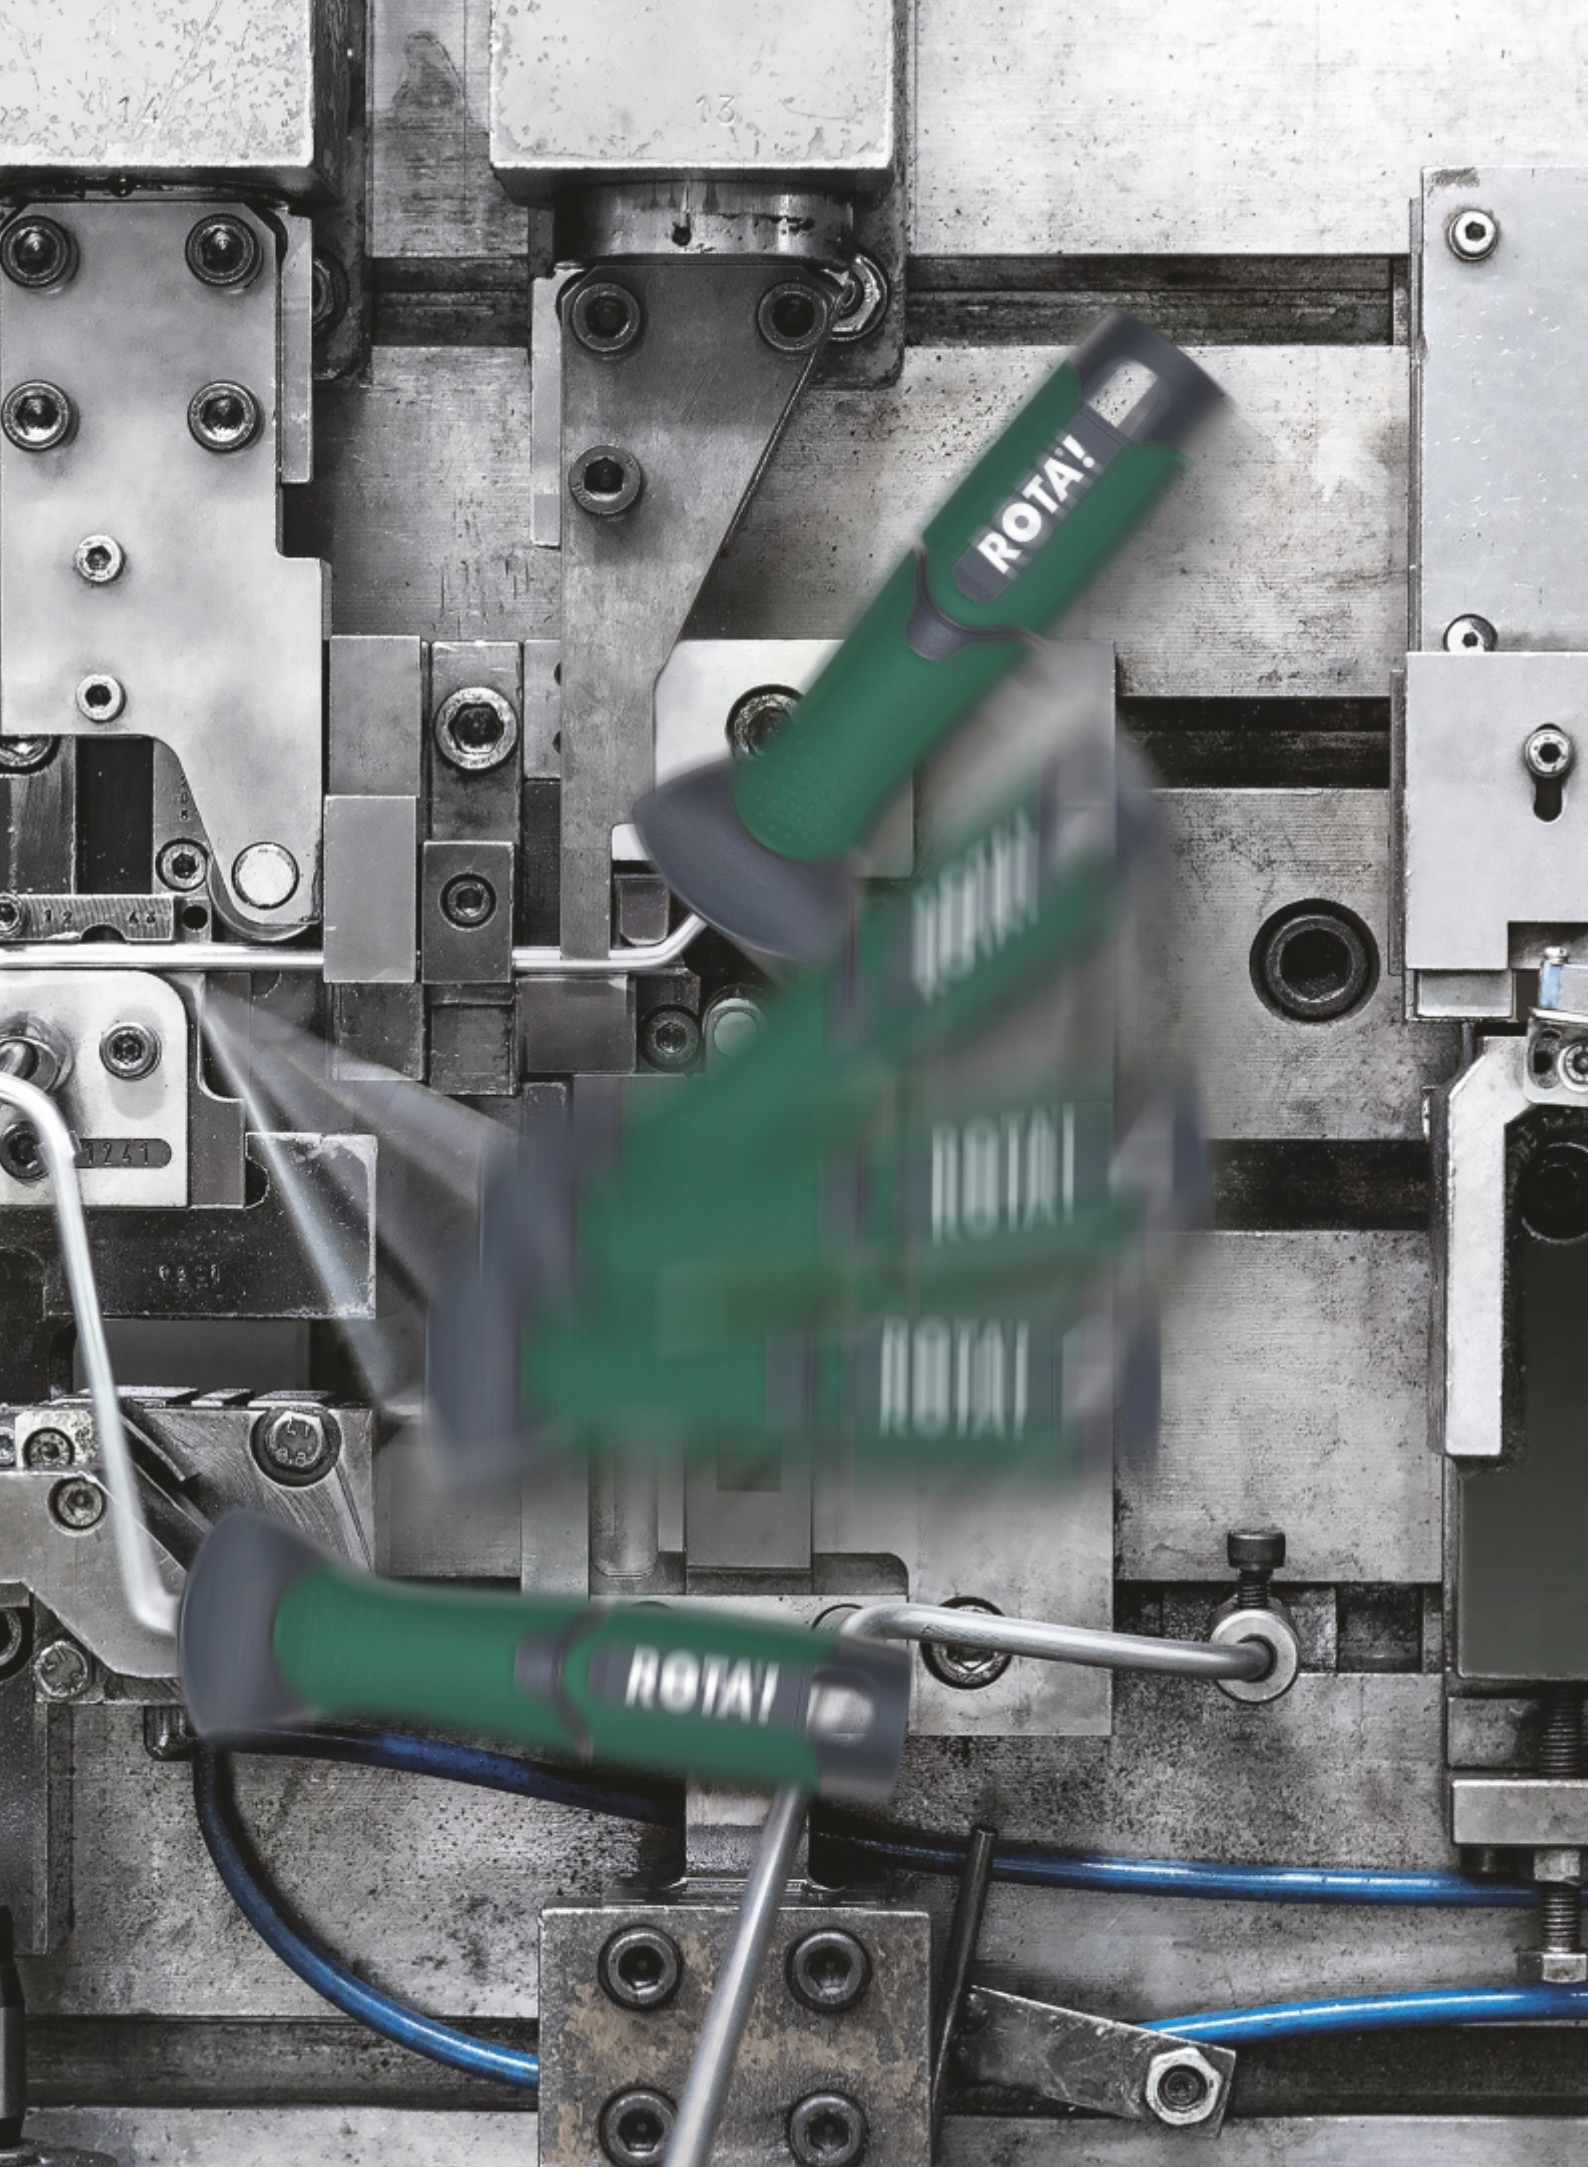

Kana brushes - our selected and innovative range of brushes for professionals: the bristle mixtures are optimally composed for every area of application. From entry-level quality to the premium line.

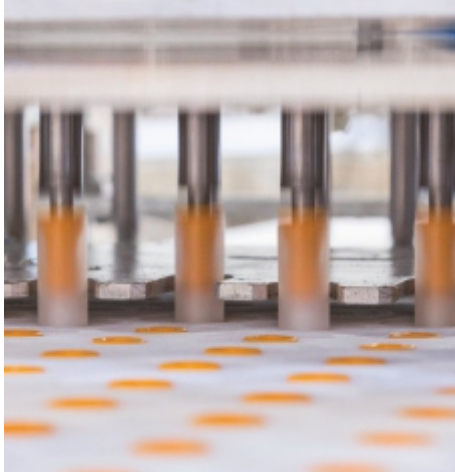

Masking tapes & cover masq	69
---------------------------------------	-----------

Masq - our masking range offers exclusive branded products in premium quality. The lines have different visual designs and are available in the most common widths and dimensions.

Surface preparating tools & accessories	91
--	-----------

Prep - from putty to abrasives and wallpapering tools: our Prep range has everything that paint and plaster applicators need for their work. In premium, professional and standard quality.

MANUFACTURING EXPERTISE

Professional tools in professional quality

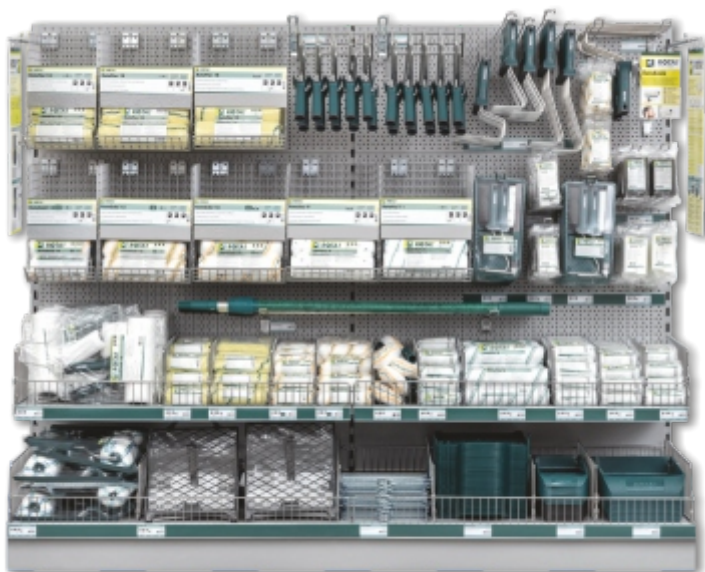

Painting tools from the number one in Europe

With the product range of Rota (paint rollers), Kana (brushes), Masq (adhesive tapes) and Prep (accessories), the Storch-Ciret Group provides the professional building materials trade with first-class painting tools. The product ranges are geared towards the requirements and tasks of professionals and are particularly geared towards the needs of mobile generalists.

Own production facilities

Most of the Rota, Kana, Masq and Prep products are manufactured in our own production facilities - always in close cooperation with the paint industry. In this way, we ensure stable quality for you and your customers and the painting tools are always matched to the current range of paints on the market.

PROFI TOOLS

For the building materials trade

With the Rota, Kana, Masq and Prep ranges, we offer the building materials trade high-quality, professional painting tools - and well thought-out presentation concepts to match. Our product ranges are modular, clearly structured and attractively designed. Individual product highlights are highlighted. In this way, we increase purchasing security and make it easier to make a purchase decision.

Compact and complete

Our compact ranges cover all painting applications - from masking and surface preparation to paint application. The modules offer more than 40 different wall variants. A flexible range that allows you to tailor your range of painting tools to your specialist store and your paint range. This allows you to make optimum use of your sales area - and maximize your sales.

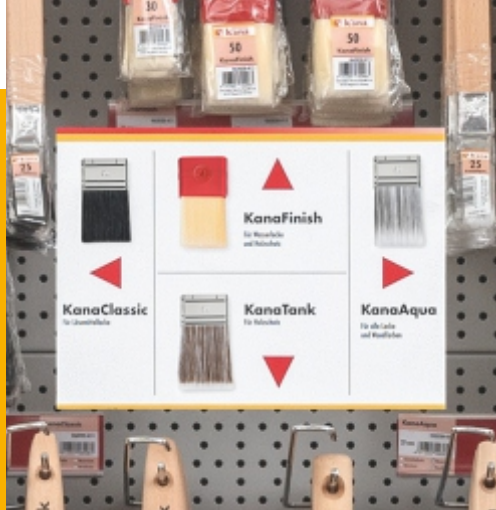

WITH SYSTEM AND SECURITY

For mobile generalists

„I can always see immediately what I need for my project. Everything works perfectly on the construction site.“

Simple!

Finding systems help your customers and employees to quickly and easily identify which product is best suited to their application. They can easily identify the product features and benefits.

WITHOUT WORDS

For international customers

Painting companies, tilers, drywallers, all-rounders ... The target group of the building materials trade is heterogeneous. The importance of one group is constantly growing: the "mobile generalists". As a one-person business or with just a few employees, they often offer three or more trades. Without their own workshop, they are mobile in operation. The vehicle functions as a workshop and warehouse. This is why we have put together our range of consumption-oriented packaging units.

Easy to understand - with and without words

Mobile generalists form an international target group: self-explanatory communication surfaces guide all customers quickly to the right tool. Verbally in numerous languages - including Turkish, Slovenian and Polish - and non-verbally with clear icons.

Clear customer guidance, secure purchase decision

The four areas at the POS are color-coded: Paint roller/green, brush/red, preparation and adhesive tapes/blue. Colors, pictograms and 8-language product labels ensure that even non-native speakers can easily find the right tool. Clear search systems provide detailed information on the respective work and application areas. In addition, application videos with further information on the product and application are available via QR codes. For safe purchasing decisions - and satisfied customers.

Compact!

- Compact professional range for painter's tools
- Under 400 items for four product ranges
- Modular system: from the gondola to the high rack
- Self-service optimized POS
- In 8 languages - including Turkish, Slovenian and Polish

Easy to understand!

Basket panels with product descriptions in the local language and pictograms for properties, application options and surfaces ensure that your customers can easily and reliably obtain information.

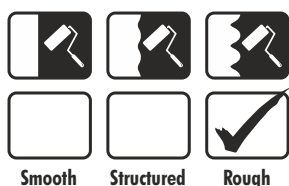

Multilingual!

Multilingual product descriptions on the packaging give your customers peace of mind - even if they don't speak the local language. For example, in Turkish, Slovenian, Polish and more.

Pictorial!

Surface pictograms show non-verbally which surface the product is suitable for.

How to read & understand the catalogue information

SURFACE

The texture of the work surface is a decisive criterion for selecting the tool. For this reason, a clear identification with simple symbols are shown on the product labels. Your customers immediately recognize whether the product is optimally suited for smooth, rough or coarse surfaces.

REFILL DIMENSIONS

A - frame diameter
B - inner core diameter
C - total diameter including plush pile height

SPECIAL TECHNICAL SOLUTION

Liquid-tight core system, easy rolling with the side mounted bearing and sockets, improved thermofusion connection - our 60 mm rollers ensure a minimized linting through the folded in plush ends on the roller sides.

The ROTA CORE-icon shows your customers this product feature of the thought-out roller system at the POS.

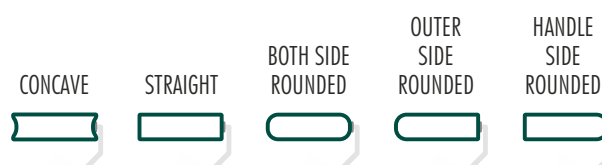

Lint-free cover made of polyamide continuous yarn

The advantages with LoTex equipment:

- Excellent paint absorption and release, and easy cleaning
- No matting of the plush even over longer periods of use
- Noticeably extended lifespan, even with silicate paints

FOAM AND FLOCK REFILL SHAPES

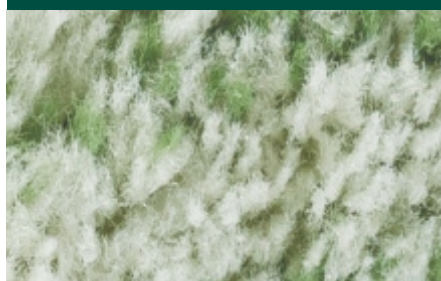

TIPS: COATING

The highest quality paints are applied efficiently if the tool supports the applicator by providing particularly good coverage and good spreadability.

In addition to the material to be applied, the condition of the surface is decisive for the right choice of product in order to achieve an optimum result.

RotaStreif21

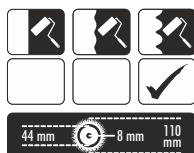

Premium roller cover from polyamide staple fibre
Prewashed plush > Reduced linting
Extra long pile (21mm) > Extra high paint loading and release

Extra thick padding for extra rough surfaces
Water repellent padding material (12mm)
Also to use in corners

TIPS: VARNISHING

Coating rollers enable high-quality work results with a wide variety of materials and in almost all application situations.

The challenge is to achieve a uniform, even coating thickness without bubbles.

BlueNylon11

Quality roller-cover of textured nylon fibre

RotaFilt5

High quality roller cover of textured endless fibre
 Textured roller-cover > No felting even with viscous paints and lacquers
 Short pile (5mm) > For an extra smooth surface finish
 High durability > Suitable also for application of 2-compound, epoxid and other solvent based varnishes

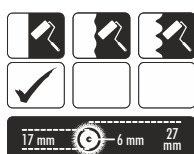

Water-proof core construction without padding

TIPS: GLAZING

A glaze is a transparent or semi-transparent coating, for example on wood. Depending on their consistency, they are divided into thin-layer and thick-layer glazes. In general, however, glazes contain fewer pigments than varnishes, for example, which means that the glaze penetrates the wood and discolours and protects the material from the inside. The wood structure therefore remains tangible and visible.

For large-area glazing or wood protection work, glazing rollers are becoming increasingly important in addition to classic surface coaters, as they can apply a lot of material and cover a large area.

The ROTA! range therefore offers a professional selection of glazing rollers for optimum work results.

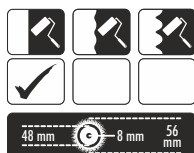

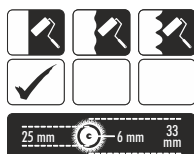

RotaVelours4

Premium roller-cover of woven lamb-wool
Fine fibre structure > For a smooth surface finish
Heavy duty, extra short pile roller-cover (4mm) > Suitable for special lacquers like 2 compound lacquers

86831119	10 cm	complete set	2
86831210	10 cm	spare refill	5
86831310	-	replacement cover plate	10

TIPS: ACCESSORIES

Rollers as the sole tool for material application are not very functional. Professional accessories are required for solid material application. Only with the right handle, a solid paint tray and a sturdy telescopic rod can well-mixed paint be applied efficiently to the surface. The 2K handle, for example, allows the handle to be guided perfectly and is adapted to the hand in such a way as to enable fatigue-free working.

RotaKnick

Premium roller frame with 2 compound handle and bent stainless steel wire
 Bent wire > Optimal power transfer and controllability
 Stainless steel wire > No corrosion/rust
 3-compound handle > Slip safe holding of roller

Suitable for application on a telescopic pole
 Stainless steel wire

How to read & understand the information in catalog

SHAPE / DIVIDING

FLAT PAINT BRUSHES

The most commonly used type of brush; its head is roughly rectangular with rounded corners.

SPECIAL BRUSHES

A complementary range of brushes that are particularly suitable for fine work - such as finishing and repairs; depending on their purpose, they come in a variety of shapes and designs.

CORNER BRUSHES

Brushes with an extended handle and an angled head, designed to improve reach into hard-to-access areas. Their heads are approximately rectangular in shape with rounded corners.

BLOCK BRUSHES

Suitable for working on larger surfaces; the brush head has a rectangular shape. They are usually equipped with a hanging clip for convenient and safe storage during breaks, and their handles are typically screw-threaded.

CEILING BRUSHES

Designed for highly efficient work on large surfaces; the brush head is either rectangular or round. They feature a hanging clip for convenient and safe suspension during breaks, and are usually equipped with a screw-threaded handle.

PAINT BRUSH GRADE

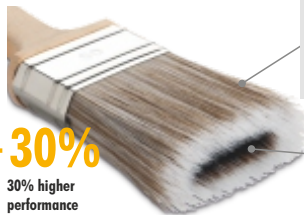

"Thickness level: GradeX" for Flat and Corner Brushes. This designation expresses the brush's thickness, specifically the thickness of the brush head. The higher the thickness level, the thicker the brush. Brushes marked with strength level 12 are the thickest in our range and therefore offer the highest coverage per single dip.

It's also important to note that the strength level does not represent an exact, measurable value in millimeters; rather, it reflects a ratio between the width and thickness of the brush. For instance, a brush measuring 30 mm in width and 16 mm in thickness is classified as thickness level 12, as is a brush with 100 mm width and 22 mm thickness.

UNIQUE SOLUTION KanaTank

The unique KanaTank paintbrush heads use our innovative 2v1 construction which consists of natural bristle tank with surface made of synthetic bristles.

+30%
30% higher performance compared to a standard Kana paint brush

Synthetic-bristle cover with conical shaped fine tops
Enables an exceptionally high-quality final surface. Thanks to its high mechanical durability, the brush offers significantly longer service life.

Unique natural bristle core
Excellent absorption with almost zero dripping also by low viscosity materials.

A black and white photograph of a man with a mustache, wearing a light-colored polo shirt and a grey work glove, painting a white surface. He is holding a paintbrush with a wooden handle and is applying paint to a corner or edge. The background shows a white wall with a vent and a window with a grid pattern.

TIPS: PAINTING

Painting work with brushes is primarily carried out in corners and edges, as well as on small to medium-sized surfaces. However, regardless of the surface, the aim is always to achieve a good application of paint with a perfect finish. The kana range includes professional-quality paintbrushes in various designs - for optimum results.

KanaFinish

The professional brush for low-viscosity paints and varnishes.
Extra-fine, innovative bristle mixture and particularly high bristle volume and extra-fine for streak-free surface finish. Swell-proof plastic ferrule.
Particularly high colour absorption.
Ergonomically optimised handle made from FSC®-certified wood.

Flat brush

Thickness: grade 12
Ferrule: plastic
Handle: hard wood

RECOMMENDATIONS FOR USE

SUITABILITY

Acceptability of tape on surface is always requested! Testing of tape on each surface is recommended to avoid any unwanted effects!

SURFACE

Surfaces on which tape is applied should be clean, dry and free of grease, oil, moisture, dirt and other contaminants.

REMOVING

Tape should be removed after painting always before paint dries. Max. usability time can be decreased by weather conditions!

INDEX

Paper masking tapes	70

MasqBricklayer BLUE

Very strong tape for use on smooth surfaces, such as window frames and door frames during façade application.

Material: cloth tape with PE top layer

Adhesive: acrylic

Power: medium

Remove within: 28 days
UV resistance: 14 days
Heat resistance: 100 °C (max. 60 min)

+ WALL PAINTS

- WOOD PROTECTION

- LACQUERS

+ PLASTERS

Art.No.	Width	Length	Sales Unit
96153076	48 mm	25 m	6

MasqPlasterer GROOVED

Medium thick grooved PVC tape for plastering works on smooth or light structured surfaces

Material: medium thick layer PVC tape

Adhesive: natural rubber

Power: medium

Not to use on PVC surfaces!

Remove within: 14 days
UV resistance: 14 days
Heat resistance: 60 °C (max. 60 min)

+ WALL PAINTS

- WOOD PROTECTION

96989910	100 cm	100 m	transparent	4

Socket power covers

Fast and efficient covering of power sockets.

Solid plastic body. Quick and simple application and removing thanks 4 strong magnets.

Possibility of reusability - costs saving and environment friendly.

Practical set with 10 pieces.

10 pcs in packaging

Art.No.	Quantity	Sales Unit
96957071	10 ×	20

Carpet tapes

Double-sided adhesive installation tape.
Synthetic resin adhesive with high adhesive power.
Suitable for bonding carpets, PVC floors and for fixing laminate/vinyl.

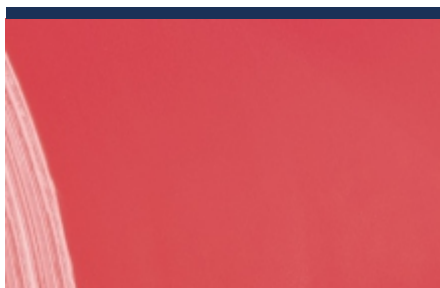

Fabric reinforced

Art.No.	Width	Length	Sales Unit
96415010	50 mm	25 m	6

Foil reinforced

Art.No.	Width	Length	Sales Unit

96314510	100 mm	45 m	6
96312310	150 mm	23 m	6

Nonwoven fibreglass tape

Ideal for drywall constructions & wall-crack repairs.

Art.No.	Width	Length	Sales Unit
96325010	50 mm	25 m	10

Aluminium tapes

Self adhesive aluminium tapes suitable for use at insulation works.

Flame and heat resistant, certified for DIN-4102-B1

Heat resistance: 120 °C (max. 60 minut)

Art.No.	Width	Length	Sales Unit
96442519	50 mm	50 m	2

Heat resistance: 100 °C (max. 60 minut)

Art.No.	Width	Length	Sales Unit
96465019	50 mm	50 m	2

Aluminium coated PP tape

Aluminium coated PP tape.

Suitable for drywall- and insulation works.

Small plastic core

Heat resistance: 50 °C (max. 60 minut)

Art.No.	Width	Length	Sales Unit
96485019	50 mm	50 m	12

Duct tapes

Extra strong textile reinforced plastic tape. Suitable all-purpose tape to fix, bond, repair, mount and seal.

Art.No.	Width	Length	Sales Unit
96195076	50 mm	50 m	6

Art.No.	Width	Length	Sales Unit
96214810	48 mm	10 m	4

Covering craft papers

Strong brown paper for covering of big surfaces.
Possibility of reusability - costs saving and environment friendly.

One layer cardboard

Art.No.	Dimensions	Thickness	Packaging	Sales Unit
96999815	1 × 20 m	90 g/m ²	rolled	5
96999915	1 × 50 m	90 g/m ²	rolled	3

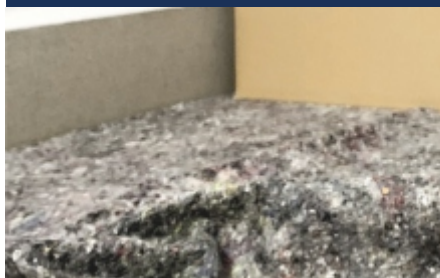

Covering corrugated cardboards

Strong corrugated cardboard for covering of big surfaces.
Strong protection against mechanical damage and high absorbency.
Possibility of reusability - costs saving and environment friendly.

Two layers corrugated cardboard

Art.No.	Dimensions	Thickness	Packaging	Sales Unit
96991519	1,05 × 10 m	210 g/m ²	rolled	3
96992519	1,05 × 20 m	210 g/m ²	rolled	2

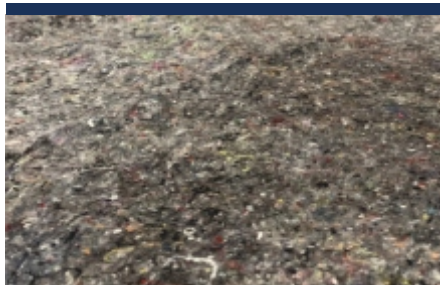

Staple fibre felts

Fleece with a unique manufacturing method for minimal dust generation during use.
Special finished, extra fluid absorbent felt mixture.
Extra heavy duty & extra strong.
Slip resistant waterproof back.
Multipurpose use and possibility of reusability.

First-class quality
Easy to use
High safety

Art.No.	Dimensions	Thickness	Packaging	Sales Unit
94262470	1 × 25 m	180 g/m ²	rolled	2
94264970	1 × 50 m	180 g/m ²	rolled	1

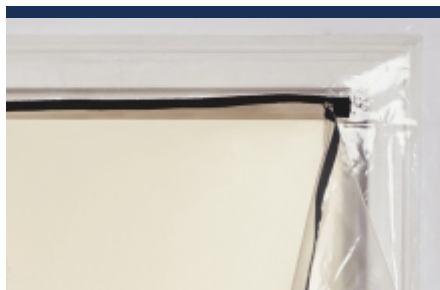

Covering fleeces

Soft nonwoven top layer, non-slip bottom layer with leak protection.
Multipurpose use and reusable.

Art.No.	Dimensions	Thickness	Packaging	Sales Unit
94260315	1 × 3 m	180 g/m ²	folded	10
94260515	1 × 5 m	180 g/m ²	rolled	12

94262215	1 × 25 m	220 g/m ²	rolled	2

Protective LDPE doors

With an L-shaped zipper closure.

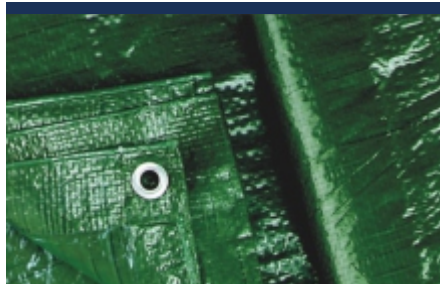

For protection against dust and dirt during renovation work. Waterproof and almost dustproof. Suitable for passage widths from 60 cm to 110 cm.

Possibility of reusability - costs saving and environment friendly.

Thickness: 0,100 mm

Art.No.	Dimensions	Sales Unit
96962215	2,2 × 1,2 m	5

Tarpaulins

Robust tarpaulin with laminated micro fabric. Universally suitable in construction site environment, also for closing window openings or covering wood, trailers, pools, sandboxes and more.

Waterproof, tear resistant, UV resistant and long lasting use. Eyelets every 1m for tying down. Possibility of reusability - costs saving and environment friendly.

Thickness: 0,075 mm

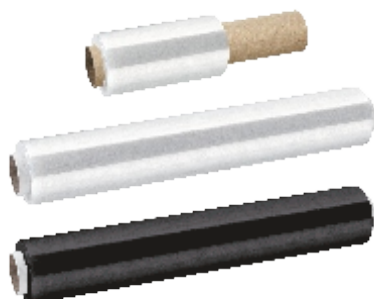

Art.No.	Dimensions	Sales Unit
96930615	1,5 × 6 m	15
96930215	2 × 3 m	20
96930315	3 × 4 m	10

93340210	82 × 228 mm	3

SANDING MATERIAL

Abrasive materials such as papers, cloths, meshes, and sponges offer a wide range of possibilities for different types of sanding.

The selection of the right type depends on the surface and the desired result.

High-quality abrasives help achieve a smooth and precise finish without unnecessary wear.

Sanding mesh

Silicium carbide grain

Glass fibre mesh

Especially good for gypsum plasters

92203610	360 × 130 mm	0,7 mm	5
92204810	480 × 130 mm	0,7 mm	5
92206010	600 × 130 mm	0,7 mm	5

PLASTERING TOOLS

Plastering tools allow for precise application of decorative plasters and detailed surface finishing.

They are essential for achieving a professional and highly aesthetic result.

Proper use enables the creation of both textured and smooth surfaces according to current design requirements.

Plasterer's spatula
Stainless steel blade
2K ergonomic handle

Art.No.	Width	Blade thickness	Sales Unit
92172110	80 mm	0,7 mm	5
92172210	100 mm	0,7 mm	5

Plasterer's spatula

Plastic float PUR
Polyurethane material
For plastering works

Art.No.	Dimensions	Sales Unit
92402610	260 × 140 mm	5
92403210	320 × 180 mm	2
92403610	420 × 220 mm	3

Sponge rubber spreading board
For grouting after tiling with grout

Art.No.	Dimensions	Cover thickness	Sales Unit
92214010	280 × 140 mm	9 mm	5

Plastic float with white felt cover
For wet plasters

Art.No.	Dimensions	Cover thickness	Sales Unit
92313010	280 × 140 mm	10 mm	5

Sponge rubber spreading board
For smoothing and spreading all types of plasters

Art.No.	Dimensions	Cover thickness	Sales Unit
92413010	280 × 140 mm	9 mm	3
92414010	280 × 140 mm	18 mm	5

Plastic float with coarse sponge cover
For rinsing of tiles after grouting

Art.No.	Dimensions	Cover thickness	Sales Unit
92440010	280 × 140 mm	30 mm	3

Hydro sponge spreading board
For cleaning tile surfaces and removing excess grout

Art.No.	Dimensions	Cover thickness	Note	Sales Unit
92254010	280 × 140 mm	30 mm	cutted	5
92253010	280 × 140 mm	30 mm	not-cutted	5

NOTCHED TROWELS

Notched trowels are specialized tools used for applying adhesives and fillers. Their distinctive shape ensures even distribution of the material. Different notch sizes allow for adjusting the thickness of the applied layer.

Notched trowel
Stainless steel blade
Wood handle

Art.No.	Dimensions	Blade thickness	Notch size	Sales Unit
94076610	280 × 130 mm	0,7 mm	6 × 6 mm	5
94076810	280 × 130 mm	0,7 mm	8 × 8 mm	5

CAULKING GUNS

The application of sealants and silicone materials is precise and convenient thanks to a caulking gun. It simplifies work related to jointing, bonding, and insulation. Modern models are equipped with a "fly-back" feature to prevent unwanted material discharge.

Half shell caulking gun

Notched push rod
Lacquered steel
For standard cartridge size

Art.No.	Cartridge size	Sales Unit
94102010	310 ml	6

Caulking gun

Robust design with excellent craftsmanship
Lacquered steel
For standard cartridge size

Art.No.	Cartridge size	Sales Unit
94103010	310 ml	6

Caulking gun

Professional gun
Design with "fly-back" protection against unintended material discharge
For standard cartridge size

Art.No.	Cartridge size	Sales Unit
94103410	310 ml	5

Caulking gun

With a special extended handle and "fly-back" protection against unintended material discharge
Lacquered metal
For standard cartridge size

Art.No.	Cartridge size	Sales Unit
94104210	310 ml	3

Caulking gun semi-closed

With dented rod
High quality steel
For standard cartridge size

Art.No.	Cartridge size	Sales Unit
94108010	310 ml	6

Caulking gun
Detachable aluminium body

Art.No.	Cartridge size	Sales Unit
94106310	600 ml	1

PU-foam gun
Suitable for PU foam cartridges
Includes two extension tubes and two nozzles for precise work

Art.No.	Cartridge size	Sales Unit
94109010	-	1

DRY CONSTRUCTION, INSULATION AND TILING TOOLS

Specialized tools for drywall construction, thermal insulation, and tiling enable efficient and high-quality material installation. They help achieve long-term stability and a professional appearance of structures.

Drywall handsaw
Extra strong, hardened steel blade
Sharpened denting

Art.No.	Dimensions	Sales Unit
92621510	150 mm	3

Styrofoam and drywall plane
Lacquered metal body

Art.No.	Dimensions	Sales Unit
92610010	250 × 40 mm	2

Styrofoam hand sander

Metal rasp sanding surface
Plastic body

Art.No.	Dimensions	Note	Sales Unit
93357210	270 × 130 mm	1K handle	4
93354010	400 × 180 mm	1K handle	2
93359010	380 × 160 mm	2K handle	2

Styrofoam hand sander

Including P16 sanding sheet
HDF body
Plastic handle

Art.No.	Dimensions	Grit	Sales Unit
93383510	350 × 200 mm	P16	3

Styrofoam hand sander

Metal rasp sanding surface
Robust metal body and handle

Art.No.	Dimensions	Sales Unit
93701010	270 × 140 mm	3

Plaster & Cellular concrete grater

Especially for YTONG wall surfaces

Art.No.	Dimensions	Sales Unit
93714510	450 × 85 mm	2

Tile cleaning set

Including bottom grid and 2 cleaning rollers

Art.No.	Volume	Sales Unit
90290110	20 l	1

Jointing trowel
Silicon cover, plastic body
With angle shaped edges

Art.No.	Dimensions	Sales Unit
92192510	100 × 250 mm	5

Spacer wedges
Practical plastic wedges for tilers

Art.No.	Dimensions	Quantity	Sales Unit
90180010	small	100 ×	30
90190010	big	30 ×	30

Spacer crosses
Practical plastic crosses for tilers

Art.No.	Dimensions	Quantity	Sales Unit
90212010	2,0 mm	150 ×	30
90212510	2,5 mm	150 ×	30
90213010	3,0 mm	150 ×	30

Cleaning sponge
Viscose sponge
Suitable for tile cleaning after grouting

Art.No.	Dimensions	Sales Unit
90330010	165 × 110 × 60 mm	10

Cleaning sponge
Viscose
For cleaning dirt during renovation work
Particularly absorbent

Art.No.	Dimensions	Sales Unit
90310010	150 × 100 × 35 mm	5

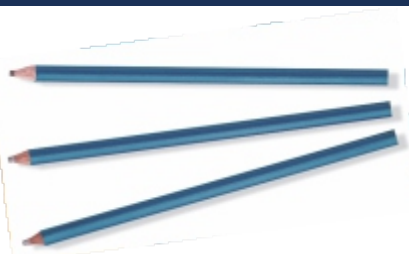

Cleaning sponge
Synthetic sponge
For cleaning works

Art.No.	Dimensions	Sales Unit
90340010	150 × 100 × 50 mm	10

Plastic sole plates with nails
 With 11 hardened nails
 For easy and safe walking on wet floor coatings

Art.No.	Suitable for shoe sizes	Nail length	Sales Unit
92650010	41-46	33 mm	1

Pencil set
 3pcs set
 Ideal for DIYs and professionals at working

Art.No.	Dimensions	Quantity	Sales Unit
98200310	18 cm	3 ×	10

Tar-bitumen brush
 Natural fibre
 Heat resistant
 With whole for handle/pole

Art.No.	Dimensions	Sales Unit
88022010	67 × 200 mm	10

Tool trolley
 Practical and safe storing of tools
 Comfortable retractable handle
 Durable wheels

Art.No.	Dimensions	Sales Unit
90990110	59,5 × 38 × 42 cm	6

BOWLS AND BUCKETS

Containers for mixing plaster, render, and other building materials are essential for proper preparation of mixtures.

They ensure optimal consistency and easy application.

Durable container materials extend their lifespan and make cleaning after work easier.

Plater bowl

For mixing render and plaster

Made of plastic semi-flexible

Art.No.	Dimensions	Diameter	Sales Unit
94090110	height	120 mm	10
94091110	flat	150 mm	10

Plaster pot

Steel body

Wood handle

Art.No.	Dimensions	Sales Unit
92169910	180 mm	5

Plasterer's bucket

Plastic with metal handle

Art.No.	Dimensions	Sales Unit
84829910	12 l	5
84812010	20 l	5

Mortar box

Plastic

Art.No.	Dimensions	Sales Unit
84810410	45 l	3
84810610	60 l	3
84810910	90 l	3

WALLPAPERING TOOLS

Wallpapering tools include rollers, brushes, and pressing spatulas for precise and convenient wallpaper application. They help achieve a flawless result without bubbles or unevenness. High-quality tools minimize the risk of damaging the wallpaper during application.

Plastic press-on spatula flexible

Flexible plastic design
For pressing wallpaper after pasting
Also for use with fiberglass or vinyl wallpaper

Art.No.	Dimensions	Sales Unit
95880010	28 cm	10

Wallpaper & floor scraper

Steel blade
300mm metal body and pole with plastic handle

Art.No.	Dimensions	Sales Unit
93728070	100 × 300 mm	10

Paperhanging brush wood

For pressing wallpaper after pasting
With punched nylon bristle and wooden handle

Art.No.	Dimensions	Sales Unit
95890010	25 × 300 mm	4

Seam roller PU- foam

Soft polyurethane foam
1K plastic handle

Art.No.	Width	Diameter	Sales Unit
95860110	40 mm	35 mm	10

Seam roller conical

Hard foam body
Conical shape
1K plastic handle

Art.No.	Width	Sales Unit
95860010	35 mm	10

Professional wallpaper scissors Optima

Stainless steel blades
ABS handles
Also suitable for left-handers

Art.No.	Dimensions	Sales Unit
95842710	28 cm	12

KNIVES AND SPARE BLADES

Sharp knives and replacement blades are key for precise cutting of various materials.
They are essential for wallpapering, painting, and other tasks.
Choosing the right knife increases work efficiency and reduces effort.

Snap-off knife

Plastic body and ergonomic 2K soft grip
With metal guide and fixing knob
Extra wide blade

Art.No.	Dimensions	Sales Unit
95640010	25 mm	10

Snap-off knife PrepBlack

Plastic body and ergonomic 2K soft grip
With metal guide
With automatic blade fixing and retracting device

Art.No.	Dimensions	Sales Unit
95651571	18 mm	20

Aluminium snap-off knife

Aluminium body
With metal guide
With automatic blade fixing

Art.No.	Dimensions	Sales Unit
95652010	18 mm	24

Snap-off knife

Plastic body and ergonomic 2K soft grip
With metal guide
With automatic blade fixing

Art.No.	Dimensions	Sales Unit
95651071	18 mm	10

Snap-off knife

Plastic body and ergonomic 2K soft grip
With metal guide
With automatic blade fixing

Art.No.	Dimensions	Sales Unit
95651010	18 mm	24

Snap-off knife
Plastic body
With metal guide
With manual blade fixing

Art.No.	Dimensions	Sales Unit
95690010	18 mm	24

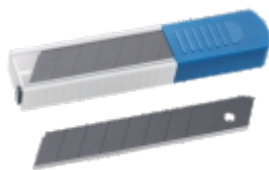

Snap-off knife
Plastic body
With manual blade fixing

Art.No.	Dimensions	Sales Unit
95620010	18 mm	48

Replacement blades
10pcs in plastic box
Extra wide & strong

Art.No.	Dimensions	Thickness	Quantity	Sales Unit
95678010	25 mm	0,7 mm	10 ×	10

Replacement blades PrepBlack
10pcs in plastic box
Extra quality for long durability

Art.No.	Dimensions	Thickness	Quantity	Sales Unit
95681871	18 mm	0,4 mm	10 ×	20

Replacement blades
10pcs in plastic box
With Titan-Nitrite layer for heavy duty works

Art.No.	Dimensions	Thickness	Quantity	Sales Unit
95679071	18 mm	0,5 mm	10 ×	10

Replacement blades
10pcs in plastic box

Art.No.	Dimensions	Thickness	Quantity	Sales Unit
95670171	18 mm	0,4 mm	10 ×	10

MATERIAL MIXERS

Paint mixers ensure thorough mixing of coatings and other materials. Proper consistency is crucial for even application. A high-quality mixer helps eliminate air bubbles and ensures a homogeneous blend.

Plaster mixer

Especially for gypsum plasters
Zinc plated steel
SDS-Plus system

Art.No.	Dimensions	Max. loading	Sales Unit
94381619	100 × 500 mm	15 kg	6

Plaster mixer

Especially for gypsum plasters
Zinc plated steel

Art.No.	Dimensions	Max. loading	Sales Unit
94381517	100 × 400 mm	15 kg	6

Plaster mixer

Especially for gypsum plasters
Zinc plated steel
SDS-Plus system

Art.No.	Dimensions	Max. loading	Sales Unit
94351519	100 × 500 mm	20 kg	6

Plaster mixer

Especially for gypsum plasters
Zinc plated steel

Art.No.	Dimensions	Max. loading	Sales Unit
94371517	80 × 400 mm	10 kg	6
94372017	100 × 480 mm	20 kg	6

Paint mixer

For paints & low viscosity glues
Lacquered steel

Art.No.	Dimensions	Max. loading	Sales Unit
94301017	60 × 400 mm	10 kg	6
94301517	85 × 400 mm	15 kg	3
94302017	100 × 540 mm	20 kg	3

Paint mixer
For paints & low viscosity glues
Wooden

Art.No.	Dimensions	Sales Unit
94361010	450 mm	25

Paint mixer
For paints & low viscosity glues
Plastic

Art.No.	Dimensions	Sales Unit
94330010	275 mm	10
94334510	430 mm	50

Paint mixer
For paints & low viscosity glues
Stainless steel with soft-touch handle
Including convenient paint can opener

Art.No.	Dimensions	Sales Unit
94312810	280 mm	10

PERSONAL SAFETY EQUIPMENT

Personal protective equipment includes safety gear such as masks, gloves, and goggles for protection during painting and preparatory work. They are essential for ensuring safety and health in the workplace. Using high-quality protective items helps prevent injuries and long-term health damage.

Dust mask FFP2
2pcs/pack
With exhalation valve for easy breathing
CE: EN149:2001 + A1:2009

Art.No.	Size	Protection level	Quantity	Sales Unit
98625072	-	FFP2	2 ×	5

Dust mask FFP1
3pcs/pack
CE: EN149:2001 + A1:2009

Art.No.	Size	Protection level	Quantity	Sales Unit
98614172	-	FFP1	3 ×	5

Protective goggles
With rubber strap
With ventilation valve
CE: EN166:2001

Art.No.	Sales Unit
98640017	6

Painter's overall
Non-woven PE material
With protective hood
With ankle-, arm-, and waist bands

Art.No.	Size	Sales Unit
98680115	XL	10
98680215	XXL	10

Nitril gloves - GeckoGrip
Secure grip due microfoam coating
Excellent sensitivity
CE cat.2/EN388

Art.No.	Size	Sales Unit
98560110	M / #8	12
98560210	L / #9	12
98560310	XL / #10	12

Nitril gloves - PaintGrip
For works with paints, varnishes etc.
CE cat.2/EN388

Art.No.	Size	Sales Unit
98512210	L / #9	12
98512010	XL / #10	12

Nitril gloves - AquaGrip
Secure grip at works with fluids
Moisture repellent
CE cat.2/EN388

Art.No.	Size	Sales Unit
98570110	M / #8	12
98570210	L / #9	12
98570310	XL / #10	12

Latex gloves - WinterGrip

Secure grip and good tactile sensitivity
Excellent cold protection (acrylic terrycloth)
CE cat.2/EN388

Art.No.	Size	Sales Unit
98590210	L / #9	12
98590310	XL / #10	12

Nitril gloves - TopGrip

Secure grip
Moisture repellent
CE cat.2/EN388

Art.No.	Size	Sales Unit
98530110	M / #8	12
98530210	L / #9	12
98530310	XL / #10	12

Gloves - WorkGrip

For rough works
Cotton lining
CE cat.2/EN388

Art.No.	Size	Sales Unit
98581010	XL / #10	12

Painter's gloves - SensoGrip

Breathable polyester gloves with polyurethane covering
CE cat.2/EN388

Art.No.	Size	Sales Unit
98540210	L / #9	12
98540310	XL / #10	12
98540410	XXL / #11	12

Cotton gloves

Cotton gloves with latex dots for better grip
CE cat.1/EN420

Art.No.	Size	Sales Unit
98551010	XL / #10	12
